

On the Rio Grande . . .  
the Revolutionary **GP-30**

On the Denver, Rio Grande and Western, thirteen General Motors GP-30 Diesel locomotives speed freight westward from Denver and Pueblo to Salt Lake City and Ogden. The most significant development since Diesel replaced steam, the GP-30 combines high speed/heavy drag capability . . . offers measurable economies in operation and maintenance . . . the advantages of increased efficiency and earning power through planned locomotive replacement.
